A disability can happen to anyone. A back injury, pregnancy, or serious illness can lead to months without a regular paycheck. If you're unable to work for a short period of time due to a non-work-related condition, illness or injury, short-term disability insurance offers financial protection by paying you a portion of your earnings.

WHAT DOES IT MEAN TO BE DISABLED?

Disability is defined in The Hartford's certificate with Members' Insurance Trust.

Due to accidental bodily injury, sickness, mental illness, substance abuse or pregnancy you are unable to perform the essential duties of your occupation, and as a result, you are earning 20% or less of your pre-disability weekly earnings or you are able to perform some, but not all, of the essential duties of your occupation and as a result, you are earning more than 20% but less than 80% of your pre-disability weekly earnings.

Pre-disability earnings are defined in your policy.

CAN I WORK AND RECEIVE A BENEFIT?

Yes. If you meet the definition of disability under the terms of the policy, but continue to work and earn less than 80% but more than 20% of your pre-disability earnings, you are eligible for a disabled and working benefit. For the disabled and working benefit or any return to work that is part of a rehabilitation plan approved by The Hartford, your short term disability benefits will be reduced by 50% of your work earnings. If you are earning less than 20% of your pre-disability earnings, you are eligible for your full weekly benefit under the policy. The total of your weekly benefit payment, current work earnings and other income benefits cannot exceed 100% of your weekly pre-disability earnings.
